### THE SIMPLICITY OF COMPATIBILITY

The GloBrite Light is more than a stand-alone pool and spa LED light. It is fully compatible with our IntelliBrite® 5g Color-Changing LED Light line of LED pool lights. When used with an optional IntelliBrite Light Controller, pool and spa owners without an automation system can enjoy fast and easy control of their pool lighting.

For the ultimate in convenience and control, consider an IntelliTouch® or EasyTouch® Control System. You can program and control light shows from home or on the go with our many options, including an indoor control panel and wireless remote. For even greater control, add an optional ScreenLogic® Interface\* to your Pentair automation system and access your pool from practically anywhere and at any time using your smartphone, computer or mobile digital device, Amazon Echo® or Apple Watch® wrist-wearable device.
